

UAIS Inbox Email & GPD Account Setup Guide

Overview

This guide provides step-by-step instructions to set up your **UAIS Inbox Email (Nexus)** and **GPD** accounts, activate your account, change your temporary password, and enable Two-Step Verification (2SV).

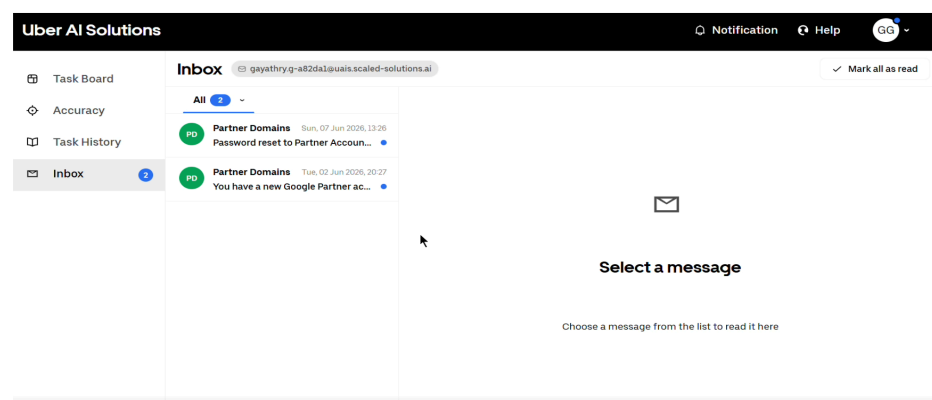

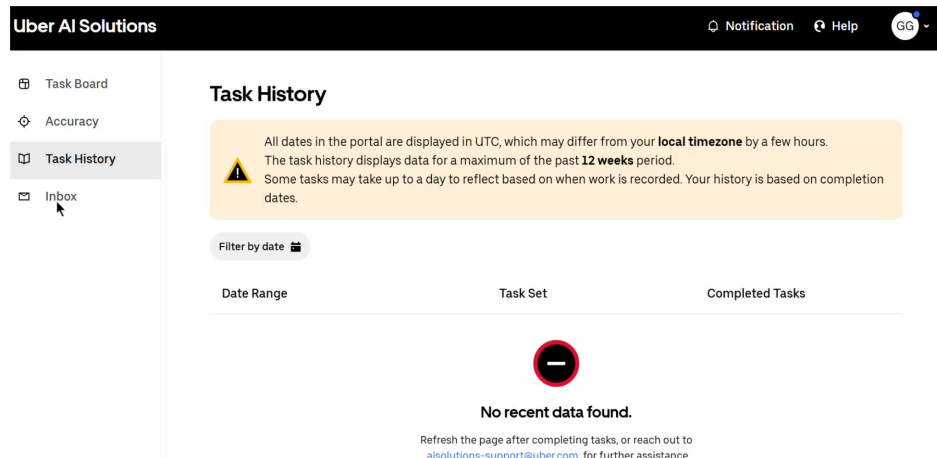

Step 1: Complete Nexus Onboarding

1. Open the [Nexus Onboarding](#) link provided to you.
2. Follow the on-screen instructions to complete the onboarding process.
3. After successful onboarding, you will be redirected to the **Nexus Home Page**.

Step 2: Access Your UAIS Inbox

1. From the **Nexus Home Page**, locate the left navigation panel.
2. Select **Inbox** (the fourth option in the left navigation menu).
3. The **UAIS Inbox** will open.

Step 3: Locate the GPD Activation Email

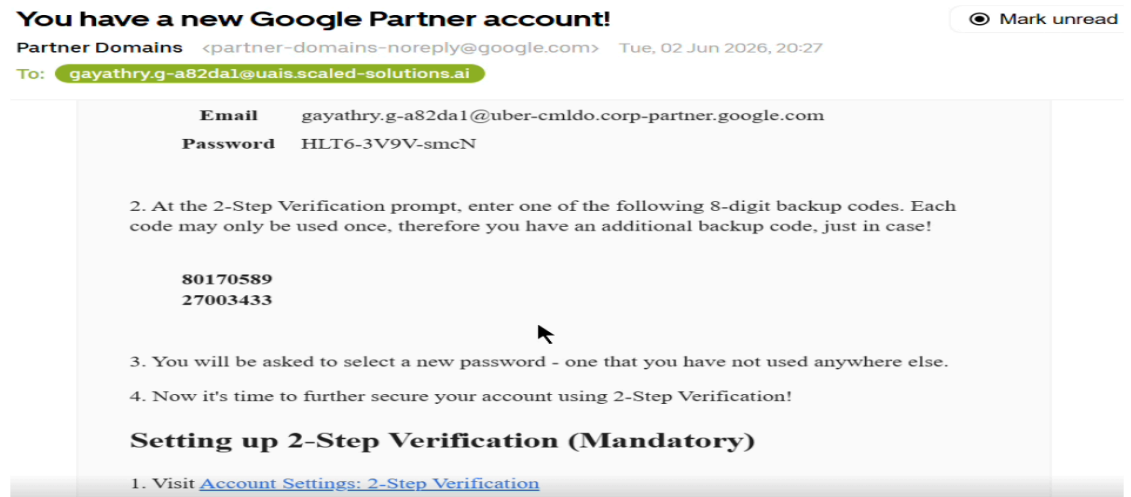

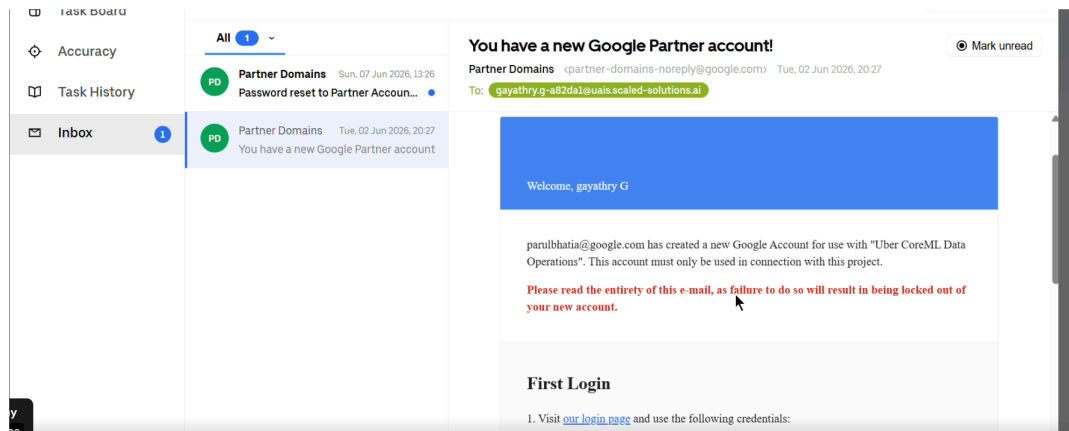

In your UAIS Inbox:

1. Locate the **GPD Activation** or **Welcome** email.
2. Open the email.

The email contains the following information:

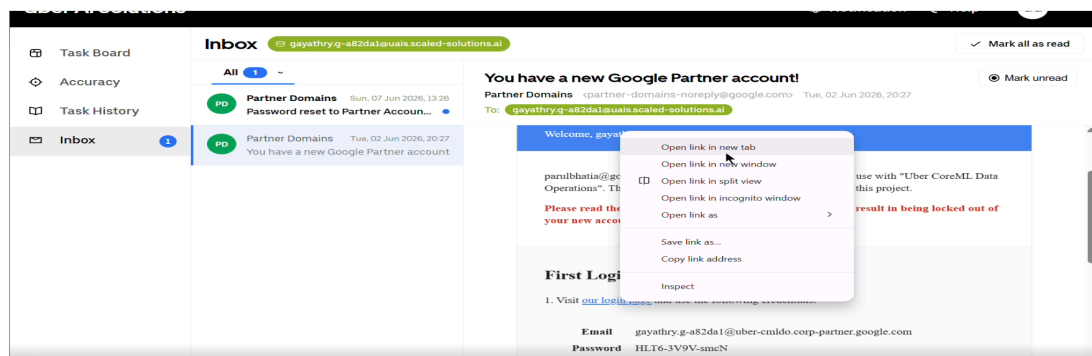

- GPD Login Link
- GPD User ID
- Temporary Password
- Verification Codes
- Two-Step Verification Setup Link

Important: Keep this email available throughout the setup process.

Step 4: Open the GPD Login Page

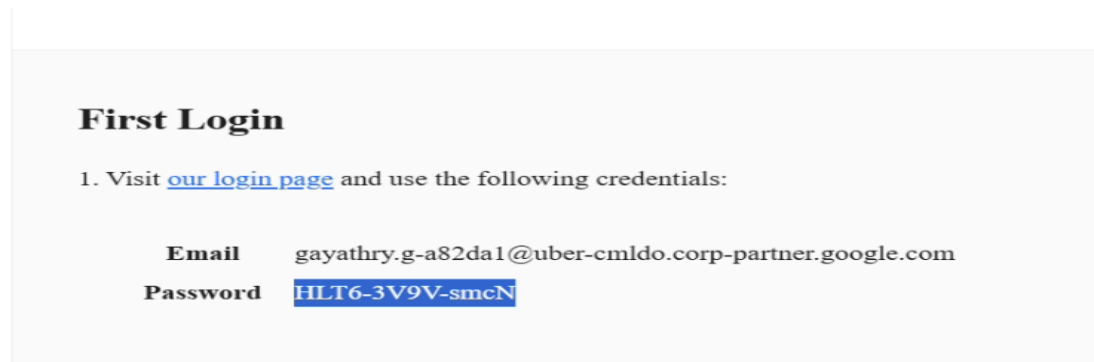

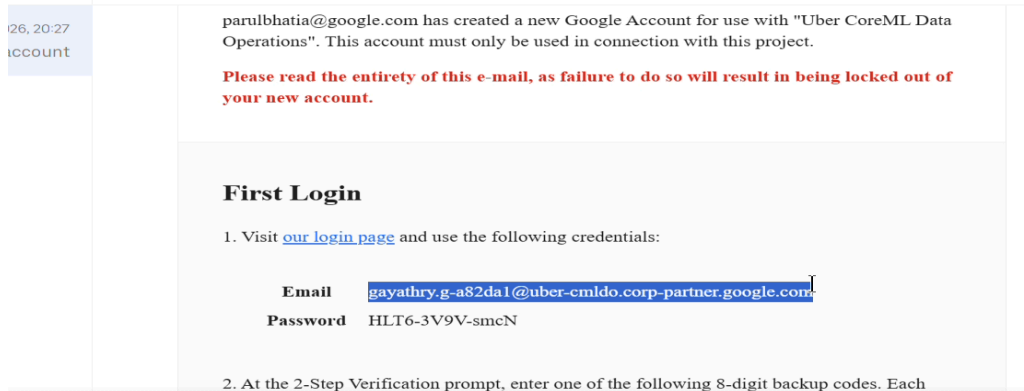

1. Click the **GPD Login** link included in the activation email.
2. Open the login page in a new browser tab.

Step 5: Sign In to GPD

On the GPD login page:

1. Enter your **GPD User ID**.
2. Enter the **Temporary Password** provided in the activation email.
3. Click **Sign In**.

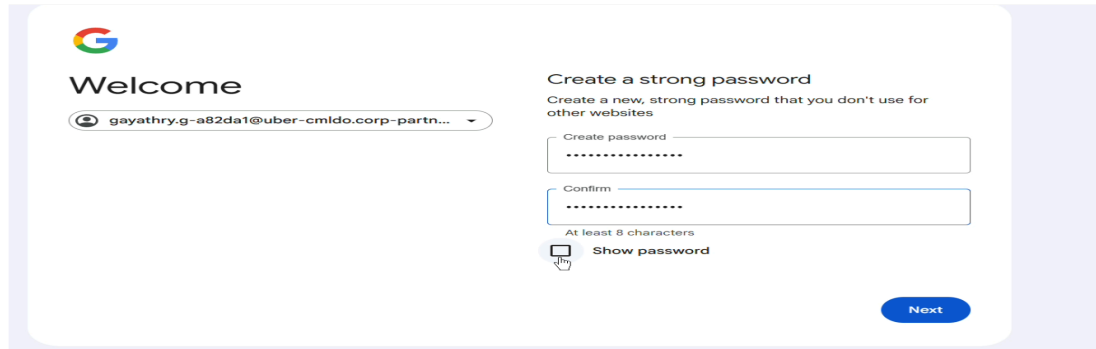

Step 6: Change Your Password

During your first login, you will be prompted to change your password.

1. Enter your temporary password.
2. Create a new password that meets the required password policy.
3. Confirm the new password.

4. Click **Continue**.

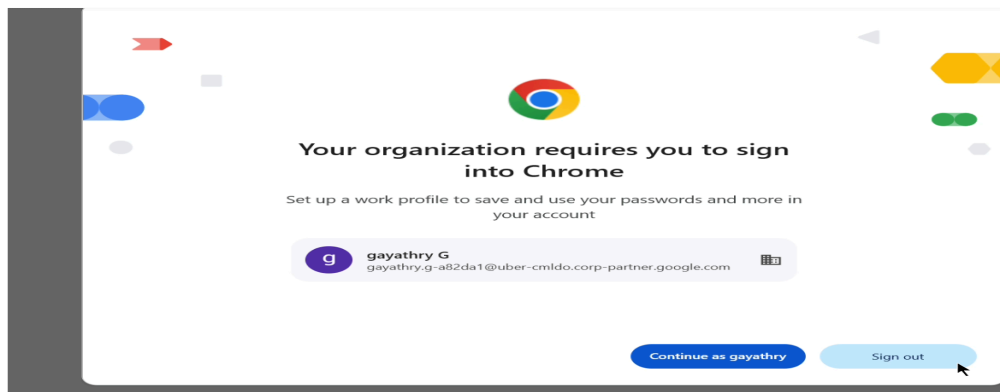

The screenshot shows the Google 'Welcome' screen. On the left, the Google logo is above the word 'Welcome'. Below it, a dropdown menu shows the email 'gayathry.g-a82da1@uber-cmldo.corp-partn...'. On the right, the heading 'Create a strong password' is followed by the instruction 'Create a new, strong password that you don't use for other websites'. There are two password input fields: 'Create password' and 'Confirm', both containing dots. Below the 'Confirm' field, it says 'At least 8 characters'. A 'Show password' link with an eye icon is next to it. A blue 'Next' button is at the bottom right.

Chrome Profile Creation:

After changing your password:

1. A new **Google Chrome profile** will be created automatically.
2. Sign in using your newly activated account when prompted.

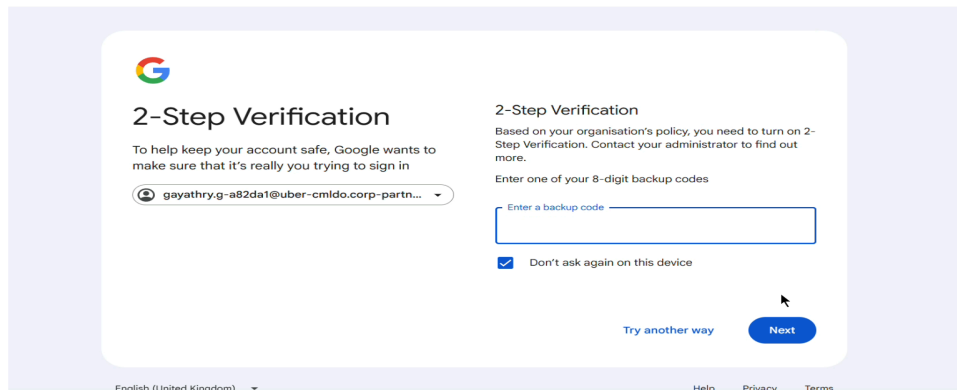

The screenshot shows the Google 'Sign in' screen. On the left, the Google logo is above the heading 'Sign in' and the text 'with your Google Account. This account will be available to other Google apps in the browser.' On the right, there is an input field for 'Email or phone' containing 'j-a82da1@uber-cmldo.corp-partner.google.com'. Below it are links for 'Forgot email?' and 'Use passkey from another device'. At the bottom right, there are links for 'Create account' and a blue 'Next' button. The footer shows 'English (United States)' on the left and 'Help', 'Privacy', and 'Terms' on the right.

Step 7: Verify Your Account

To verify your identity:

1. Enter one of the **verification codes** provided in the activation email.
2. Click **Continue**.

First Login

1. Visit [our login page](#) and use the following credentials:

Email	gayathry.g-a82da1@uber-cmlco.corp-partner.google.com
Password	HLT6-3V9V-smcN

2. At the 2-Step Verification prompt, enter one of the following 8-digit backup codes. Each code may only be used once, therefore you have an additional backup code, just in case!

8017058!
27003433

3. You will be asked to select a new password - one that you have not used anywhere else.

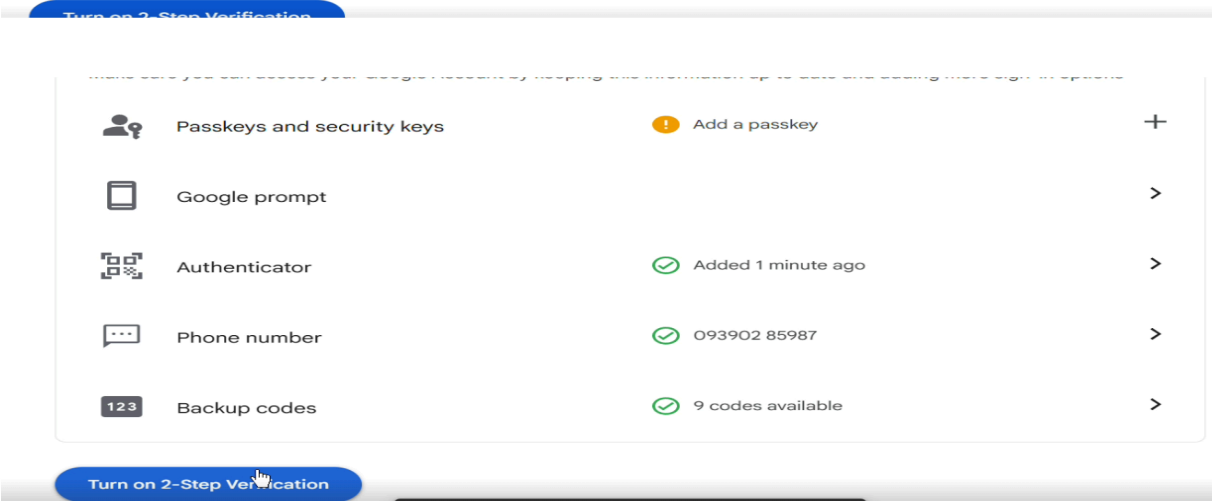

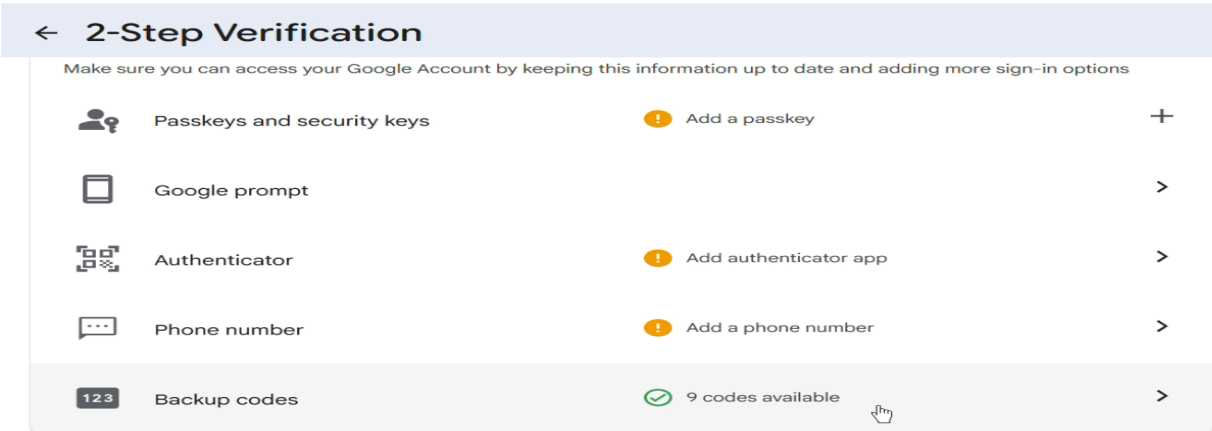

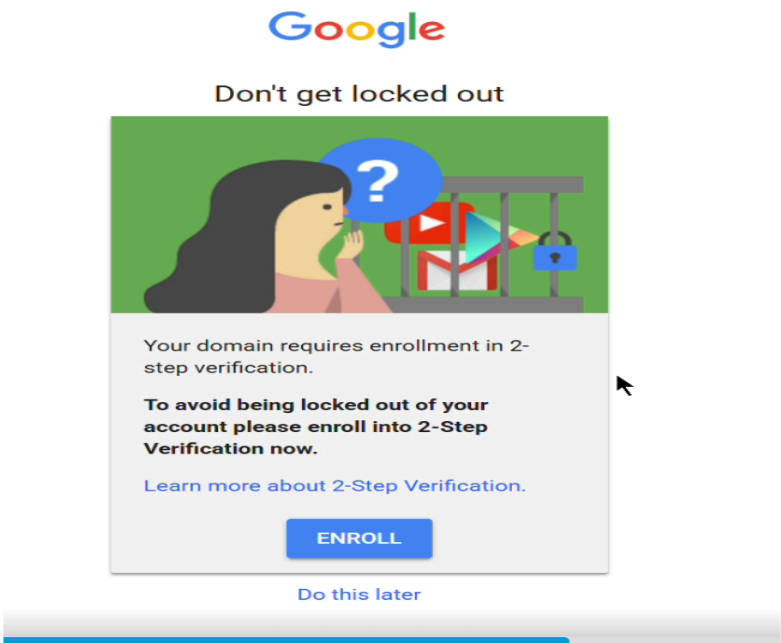

4. Now it's time to further secure your account using 2-Step Verification!

Step 8: Enable Two-Step Verification (2SV)

Once you have signed in:

1. When prompted, click **Enroll** to begin the Two-Step Verification setup.
2. Follow the on-screen instructions.
3. Select your preferred verification method.
4. Complete the enrollment process.
5. At the bottom of the page, enable the **Two-Step Verification** toggle.
6. Verify that **Two-Step Verification** is displayed as **On**.

Important: Two-Step Verification must be enabled before using your account.

You're now protected with 2-Step Verification

When signing in you'll be asked to complete the most secure second step, so make sure this info is always up to date
